

SUPERTECH SERIES

SUPERTECH 360 jacket

MC5940ED

MATERIALS

80% cotton, 19% polyester, 1% antistatic fiber.

GRAMMAGE

355 g/m²

FEATURES

Work jacket made from multi-purpose fabric, with flame-retardant treatment, designed to ensure maximum safety for those working in high-risk environments where exposure to multiple hazards is constant. It offers integrated protection from flames, convective, radiant, and contact heat, as well as from small splashes of molten metal. The garment also guarantees protection against limited splashes of liquid chemicals. Antistatic properties and effectiveness in containing the energy released by an electric arc up to 4 kA complete the jacket's safety profile. Certified Class 2 for high visibility, the garment ensures a medium-high level of visibility in daylight and nighttime conditions, even in the presence of artificial lighting such as vehicle headlights. The high percentage of cotton, combined with technical fibers, helps to perfectly balance protection and comfort, making the garment soft and breathable without compromising robustness and mechanical resistance. The mandarin collar, free of points or protruding flaps, effectively protects the cervical area from heat, splashes, and external agents, while reducing the risk of entanglement in machinery or equipment. Its 4 pockets, one of which has a retractable badge holder, make it functional and practical, allowing essential tools and items to always be within reach during work. Elasticated cuffs ensure a snug fit at the wrist, preventing the entry of dust, debris, splashes, and chemical agents into the sleeve. Reflective bands sewn on the sleeves and waist, and reflective inserts on the chest, contribute to increasing operator visibility, improving safety during work activities.

DETAILS

- Mandarin collar secured with Velcro, effectively protecting the cervical area from potentially harmful external agents;
- 2 chest pockets covered by flaps, one of which has a retractable badge holder, secured with Velcro, to ensure quick and convenient access to smaller items;
- 2 lower pockets covered by flaps, secured with Velcro;
- Elasticated cuffs, preventing the entry of dust, debris, splashes, or chemical agents into the sleeve;

CLOSING

Front zipper covered by a flap fastened with metal snap buttons.

REFLEX

Double reflective band on sleeves and waist. Reflective inserts on the chest.

AVAILABLE COLOURS

 ED - Hi-vis yellow/blue
